Current & Future Courses Available

Participating schools can request new courses, talks and briefings to be added to the service.

Benefits to your school, pupils & staff.

Education Nation has been created based on the feedback from Special Education Teachers, SNAs working in Ireland who have given feedback and suggestions to CATTS on what would be an ideal resource to allow them do the best they can supporting their pupils.

The service was set up, in response to a need for accessible and timely training, delivered on topics that will make a practical difference in the classroom.

Any school staff member on the school pay roll can be set up to access the training, encouraging whole school participation and inclusion. This approach benefits everyone, not just those pupils who may have additional needs or challenges.

All subscriptions are set to allow FULL ACCESS to the on demand courses with all school staff (teaching and non teaching) based on school size.

What are the savings to your school?

Check out our calculator on www.educationnation.ie to see how much your school can save vs purchasing the online courses separately on our public training page here.
